Title: Patients with chronic Pain: Evaluating Depression and their Quality of Life in a single center study in Greece

Version: 0 Date: 16 Oct 2018

Reviewer: Siobhan O' Higgins

Reviewer's report:

This is a very important field of study to try and disentangle the whole chicken and egg situation between depression and chronic pain. It is clearly a bi-directional relationship, as demonstrated in other studies.

Although the results from this study do not really shed any new light on that debate and it does not appear to be generalisable - it is an interesting small study and I would recommend publishing it, as it will be of interest to those in Primary Care especially.
