Reviewer’s report

Title: Estrogen and Soy Isoflavonoids Decrease Sensitivity of Medulloblastoma and Central Nervous System Primitive Neuroectodermal Tumor Cells to Chemotherapeutic Cytotoxicity

Version: 1 Date: 10 May 2017

Reviewer: Ivonne Rietjens

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

The authors should still make some changes to the manuscript:

Control data performed in the presence of E2 and absence of the other test compounds are still missing in the figures. The authors state in their letter they have done these controls in other studies, but as explained before these controls are essential to interprets the results of the present study. They should be added to the results and figures. In the revised version no changes were made to answer to this issue of the fact that the effects observed could be the result of two independent modes of action.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:
