Reviewer’s report

Title: Evaluation of pharmacotherapy complexity in residents of long-term care facilities: a cross-sectional descriptive study

Version: 0  Date: 13 Apr 2017

Reviewer: Giovanni Tarantino

Reviewer's report:

Concerning the drug-drug interaction (DDI), a deep comment on DILI is mandatory due to its high unpredictability, as clearly emphasized in the following article: Drug-induced liver injury: is it somehow foreseeable? World J Gastroenterol. 2009 Jun 21;15(23):2817-33.

Data on BMI and on mental/psychic status of patients are advisable.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
