Reviewer's report

Title: Haloperidol affects bones while clozapine alters metabolic parameters - sex specific effects in rats perinatally treated with phencyclidine

Version: 0 Date: 01 Aug 2017

Reviewer: Wissam Faour

Reviewer's report:

Dear Editor,

The authors assessed the potential effect of haloperidol on BMD, overall the study is well designed and the results are conclusive. However, the study lacks important parameters that need to be taken into considerations.

1) The experimental design lack a Haloperidol-treated group and treated with an antiresorptive (e.g., bisphosphonates) or osteoanabolic agent (e.g., calcitonin), this group is important since it provides clues about the mechanistic effect of haloperidol on BMD.

2) Also, the authors need to measure the levels of serum calcitonin and PTH 2 hormones mainly involved in bone and minerals metabolism

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?
4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?
6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
