Reviewer’s report

Title: Pharmacokinetic Study of Single- and Multiple-dosing with Metolazone Tablets in Healthy Chinese Population

Version: 0 Date: 18 Oct 2016

Reviewer: Domenico Capone

Reviewer’s report:

The design study is correct. The used methods are appropriate and the results are clearly presented and extensively discussed. Unfortunately, often the data obtained in healthy volunteers is non applicable to patients. This issue is important in the management of population suffering from diseases. I recommend to discuss this matter (see Pharmacokinetic interaction between levofloxacin and ciclosporin and tacrolimus in kidney transplant recipients: ciclosporin, tacrolimus and levofloxacin in renal transplantation. Clin Pharmacokinet. 2006; 45(2):169-175). Obviously, I recommend to add the proposed reference in the appropriate sections.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English

Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
