Reviewer’s report

Title: A newly developed oxime K203 is the most effective reactivator of tabun-inhibited acetylcholinesterase

Version: 0 Date: 16 Jun 2017

Reviewer: Yasser El-Sayed

Reviewer's report:

The MS entitled: A newly developed oxime K203 is the most effective reactivator of tabun-inhibited acetylcholinesterase

It is very interesting hot top determining in vitro reactivation of human brain AChE using testing a newly developed oxime, in comparing with other.

Since K203 reported here as the most effective reactivator of tabun-inhibited cholinesterase in several species including humans, it will be considered as a possible medical countermeasure to tabun exposure.

This MS require intensive language editing to be more readable and clear.

A lot of comments attached in the annotated file.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
