Reviewer's report:

Dear Authors

This was an interesting study and I enjoyed reading it. There are some minor points I would like to ask you about:

1- Did you have any inclusion or exclusion criteria?

2- As you have also mentioned, 2012 is the year with most of the PQ poisonings. I just wondered if you could provide p values in your Table.

3-There are some minor grammatical errors in the text. Please re-check the manuscript grammatically.

4-How long did you follow the patients who had referred in 2016?

5-How did you determine the severity of PQ poisoning in your patients?

Yours
