Reviewer’s report

Title: Investigation of Gastroprotective Effect of A Novel Dibromo Substituted Schiff Base Compound Against Ethanol-induced Acute Gastric Lesions in Rats.

Version: 1 Date: 04 Jan 2019

Reviewer: Marina Galvez-Peralta

Reviewer's report:

Although the authors make a significant improvement on the article and reviewers suggestions, there are still some facts pending to be addressed.

The experimental design still seems confusing.

P values are not shown (just p <0.05, but which raw value)?

The lab results on the first figure, what are the limits of detection for each assay (some values are 1.00 +- 0.00). It is unclear if the difference is not present or it is not detectable.

Although the authors added a paragraph regarding MTT assay, it is lacking clarification of how that can be used for measurement of wound healing.

Error bars on the first graphs are still very similar to each other.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
