Reviewer’s report

Title: Histone deacetylase inhibition by Entinostat for the prevention of electrical and structural remodeling in heart failure

Version: 1 Date: 10 Sep 2018

Reviewer: Ajay Chowdary Donepudi

Reviewer's report:

Authors had made substantial changes in the text of manuscript to address previous concerns. Here are some of minor concerns-

1) All western blots images in the manuscript need to be quantified.

2) Most of manuscript images and newly added text have comma (,) for indicating decimal point instead period(.). I would recommend authors to change it.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
