Reviewer’s report

Title: A case of delayed neurological manifestation following Carbon Monoxide poisoning in Sri Lanka: Epidemiology of exposure and literature review

Version: 0 Date: 26 Nov 2018

Reviewer: Marcelo Arbo

Reviewer's report:

This manuscripts describe a case of CO poisoning in Sri Lanka. The manuscript is well written, however I suggest to authors to take care of upper case letters unnecessary such as in line 26 "Patients", line 70, line 94 "Oxygen", line 154, line 223, line 250.

Line 111 - Correct magnesium

Line 127- He has also experienced

Line 155 - parenthesis

How was the CO value in the blood of the patients? This is essential to determine the poisoning by CO.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
