Reviewer’s report

Title: Safety and effectiveness of a low-dose amikacin in nontuberculous mycobacterial pulmonary disease

Version: 0 Date: 11 Feb 2019

Reviewer: Luisa Agnello

Reviewer's report:

This is an interesting well-written paper. The results are described in great detail and they are well discusses also in relation to the literature.

I have some minor suggestions to improve the quality of the manuscript.

Abstract: The first time you use an acronym, you must specify which word it refers to (i.e. NTM PD).

Methods: line 106, please insert the reference of CLSI-recommendation.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
Please indicate the quality of language in the manuscript:
