Reviewer’s report

Title: Application effect of apatinib in patients with failure of standard treatment for advanced malignant tumours

Version: 0 Date: 20 Jun 2019

Reviewer: Saeed Alqahtani

Reviewer's report:

- The manuscript needs extensive language revision.

- The argument in the background section needs to be strengthened and to be more convinced.

- Other variables and cofounders should be mentioned. Then, a multivariate regression should be done to access the impact of these variables on the final outcomes.
