Title: Antiviral Treatment Perspective against Borna disease virus 1 infection in Major Depression: A Double-Blind Placebo-Controlled Randomized Clinical Trial

Version: 1 Date: 26 Jul 2019

Reviewer: Tomoyuki Honda

Reviewer's report:

The revised manuscript has benefited from revisions. However, there is still one point the authors should address.

4. I understood the authors focused on period I. However, because this study was designed as a cross-over study, it is better to make comments and/or discussions on correlation of infection and clinical variables in period II, even if they did not intend to analyze it in detail.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
