Reviewer’s report

Title: Intima-media thickness and arterial function in obese and non-obese children

Version: 2 Date: 5 July 2015

Reviewer: MADHUSUDHAN VARMA

Reviewer’s report:

Discretionary Revisions:
1. Spelling, grammar and language in general needs to be corrected.
   Example- line 4,9,10,138 etc.
2. A table of Raw data with real and full BMI, BP values could be included.

Minor Revisions:
3. Even though this study appears to only demonstrate correlation between stiffness and obesity, the conclusion mentions CIMT and obesity where there was no correlation (in this study).
4. This study appeared to pick a gender difference in stiffness, but no conclusions were drawn to address that issue.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
