Reviewer's report

Title: Comparative Associations between Anthropometric and Bioelectric Impedance Analysis Derived Adiposity Measures with Blood Pressure and Hypertension in India: a cross-sectional analysis

Version: 1 Date: 18 Jan 2017

Reviewer: Indu Waidyatilaka

Reviewer's report:

This is a well designed piece of work which addresses an area which requires to be studied. However since the study was done using the general population of the town of Barshi, Maharashtra can the authors show evidence that this is a representative sample across socioeconomic parameters, urban rural etc? If so please add the details to the text. If not the authors may have to state that as a limitation.

Are the methods appropriate and well described? If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls? If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown? If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English

Please indicate the quality of language in the manuscript:
