Reviewer’s report

Title: Weight-for-height and mid-upper-arm circumference should be used independently to diagnose acute malnutrition: policy implications

Version: 0 Date: 30 Sep 2015

Reviewer: Rosan Meyer

Reviewer's report:

The publication is an excellent article and very timely. In regard to the content I think the publication can be accepted as is, but I would definitely shorten the title.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
