Reviewer’s report

Title: National pattern of grain products consumption among Canadians in association with body weight status

Version: 0 Date: 22 Mar 2017

Reviewer: Fernanda Busnello

Reviewer’s report:

The study discuss an extremely relevant subject, when we study the relationship between eating habits and obesity. The authors present an impeccable text, with excellent description in all phases of the manuscript. In the introduction, present consistent data with the theme presented. The methods clearly describe the research procedures. The discussion is well grounded in the scientific literature. I congratulate the authors for their work.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
