Reviewer's report

Title: Correlation Between physical activity, eating behavior and Obesity among Sudanese Medical Students Sudan

Version: 2 Date: 13 Jul 2018

Reviewer: Apichai Wattanapisit

Reviewer's report:

The authors have addressed all issues concerning. However, I strongly recommend the authors to recheck the results (as mentioned below) and please correct the data if there is any error. Please consider asking a native English speaker to polish the language. From my point of view, this manuscript is potential to be published in BMC Nutrition after a minor revision.

Specific comments:

Results:

- Table 3 and 4: In Table 3, a total number of overweight + obese + morbid obese is 62. However, the sum of overweight and obese is 64 in Table 4.

Please recheck and correct this data.

- Page 9, Line 50-53: "Independent t test showed insignificant difference in physical activity level between males and females (P value= 0.3)."

Please show the physical activity levels of males and females and ensure that physical activity levels in this sentence are continuous variables (if physical activity levels presented as MET - using t-test or Wilcoxon Signed Rank test. However, if physical activity levels in this sentence are categorical variables (high, medium, and low) - need to use a different a statistical test).
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?
If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
