Reviewer’s report

**Title:** Nutritional Status of Children 7-36 Months old from Millet Consuming Communities of Masindi District, Western Uganda

**Version:** 0  **Date:** 30 Jul 2018

**Reviewer:** Carin Napier

**Reviewer’s report:**

The manuscript is of interest as child malnutrition in Africa is still a major concern.

The abstract is suitable for the data presented in the manuscript. In the statistical analysis section please indicate the number of participants who completed the various assessment methods (questionnaires and anthropometric measurements). In all the sub sections of the results section the researchers need to give a more in depth representation of their results, this section needs to reflect the actual percentages and number of participants they are describing, not just 'majority', 'most' or 'nearly half'. Table one reflecting the Demographic indicators have a different sample size for every indicator, please explain why the full sample did not complete all the sections.

The manuscript should be language edited.

**Are the methods appropriate and well described?**
If not, please specify what is required in your comments to the authors.

Yes

**Does the work include the necessary controls?**
If not, please specify which controls are required in your comments to the authors.

Yes

**Are the conclusions drawn adequately supported by the data shown?**
If not, please explain in your comments to the authors.

No

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

No competing interests
