Reviewer’s report

Title: Diet quality is associated with malnutrition and low calf circumference in Canadian longterm care residents

Version: 0 Date: 30 Jul 2019

Reviewer: Lemma Getacher Altaye

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

comments by the reviewer

1. title=> needs the place and time where and when it is done.
2. Don't start with abbreviation in the abstract and the whole document
3. Which model did you use for the analysis of your outcome variable of interest? linear or logistic
4. Which OR? AOR or COR?
5. What about CHO and fats? When we say PEM?
6. Since you are using purposive or convenience method to select the sample or home, How could you generalize the data to your reference population??
7. What type of software did you use for data collection, data entry and data analysis?
8. is in line 223
9. How did you manage/minimize the bias regarding using such type of sampling method?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
