Version: 0 Date: 10 Feb 2020

Reviewer's report:

Dear Authors,

Thank you for taking the time to review your manuscript and to reply to the reviewers comments, the manuscript is largely improved.

In your comments to the reviewers you state that Pearson Correlation Coefficients were used to assess the relationships between the knowledge score and age, and years of study- however this information is still missing from the manuscript. I suggest that this is added.

In addition to the aforementioned comment, there are some very minor comments which are highlighted on the attached manuscript.

I look forward to receiving a revised manuscript soon.
