Title: A nurse-delivered mental health intervention for obstetric fistula patients in Tanzania: Results of a pilot randomized controlled trial

Version: 1 Date: 07 Aug 2017

Reviewer: Alison El Ayadi

Reviewer's report:

Thank you again for the opportunity to re-review this manuscript after author revision. The authors have done an excellent and thoughtful resubmission which addresses all of the previous concerns of both reviewers, and I have only a few small additional comments that can be addressed prior to publication:

1. Page 9, lines 1-2: one of the questions regarding intervention satisfaction is repeated, likely excluding one of the five questions indicated.

2. Page 9, lines 9-10: per previous round of reviewer comments this should read symptomatology as has been done under the next subheading 'clinical significance analysis'.
