Title: Feasibility of using risk prompts to prevent falls, dehydration and pulmonary aspiration in nursing homes: a clinical study protocol

Version: 1 Date: 27 Nov 2017

Reviewer: Heather Barry

Reviewer's report:

Thank you for making the required revisions to the manuscript - it is much improved for potential publication. However, the manuscript will also require some extensive editing in relation to English language/grammar

Can you please give an indication of the total number of residents in the CNS residential unit in line 18 of page 4 (insert n=) following the word 'unit' as this will give the readership an idea of scale.
