Reviewer’s report

Title: A Mobile Phone-based Program to Promote Healthy Behaviors among Adults with Prediabetes: Study Protocol for a Pilot Randomized Controlled Trial

Version: 2 Date: 14 Nov 2017

Reviewer: Bridie Evans

Reviewer's report:

Thank you for the opportunity to look again at this paper. The authors have undertaken a lot of work and considerably strengthened the document. I only have a few comments;

Secondary outcome measures - have the authors considered time to recruit, since this is a hard to reach group? Have the authors considered interviewing the control arm to explore why they signed up (when not guaranteed to get the intervention) and how participation in the control affected compliance.

Also, please say how interviews are undertaken (telephone, face to face) and how data are collected (recorded?)?

lines 212 onwards: Please confirm that the measures are self reported. Also, please clarify how data are downloaded from JOOL/fitbit.

Level of interest

Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
