Reviewer's report

Title: Infant HIV testing at birth using point-of-care and conventional HIV DNA PCR: an implementation feasibility pilot study in Kenya

Version: 1 Date: 19 Dec 2018

Reviewer: Victoria Simms

Reviewer's report:

I am very glad to see that the authors have taken on my criticisms of the previous draft and produced a really valuable paper which accurately reflects the study design. Figure 1 is extremely useful. I hope the study goes well.

Level of interest

Please indicate how interesting you found the manuscript:

An article of importance in its field

Quality of written English

Please indicate the quality of language in the manuscript:
