Reviewer’s report

Title: Providing culturally safe cancer survivorship care with Indigenous communities: study protocol for an integrated knowledge translation study

Version: 1 Date: 06 Feb 2019

Reviewer: Julie Townsend

Reviewer's report:

The authors’ revisions to the manuscript have strengthened it overall. It more clearly defines the cancer burden and health care challenges Indigenous people face in terms of receiving culturally-appropriate cancer survivorship care. The research methods are better described, and more information is provided on this study's role within a larger research agenda focusing on Indigenous cancer survivors. The authors now provide more detail regarding their planned collaborative process, and more specific information is provided on how data will be collected as nurses implement culturally safe survivorship care.
