Reviewer’s report

Title: Implementation of Mifepristone Medical Abortion in Canada: Pilot and Feasibility Testing of a Survey to Assess Facilitators and Barriers

Version: 0 Date: 13 Jun 2019

Reviewer: Adam Pattison Rathbone

Reviewer’s report:

This is an exceptionally well written manuscript that clearly articulates the processes involved in the robust and rigorous design of a survey. It provides useful insights into the implementation of a new service which are transferable, in my opinion, to other new services in other countries and so is of interest internationally. The manuscript also provides a clear and detailed account for novice researchers to follow if they wished to use these methods to evaluate services. Overall an excellent manuscript.
