Reviewer’s report

Title: Implementation of Mifepristone Medical Abortion in Canada: Pilot and Feasibility Testing of a Survey to Assess Facilitators and Barriers

Version: 0 Date: 25 Jul 2019

Reviewer: Chris Newby

Reviewer's report:

A well written qualitative research study on the feasibility of a survey to gather information on the implementation of Mifepristone medical abortion. I would like to see more description of the modified DELPHI phase 2 part of the study and for the authors to be a bit more explicit as to why this was a modified DELPHI and how this differs from the normal DELPHI process as this was unclear.
