Reviewer’s report

Title: Nurse-led video-coaching interventions in childhood, adolescent and young adult cancer survivors (REVIVER): a protocol for mixed methods feasibility research

Version: 2 Date: 08 Nov 2019

Reviewer: Andrew Levy

Reviewer's report:

I thought this manuscript was very well written, logically presented and overall would make a very worthy contribution to the extant literature. The intervention proposed was novel and the feasibility study outlined had legitimate and clear objectives that were implemented to a very good standard. I have no major or minor issues to report and I would like to congratulate the authors on what I thought was an excellent manuscript.
