Reviewer’s report

Title: Biobanking from the patient perspective

Version: 3 Date: 14 April 2015

Reviewer: Simon Denegri

Reviewer’s report:

The original manuscript has been substantially revised on the basis of reviewer comments and is stronger as a result. I have no suggested compulsory revisions. A discretionary revision which is more in the hands of the production department is formatting this article in such a way that the helpful definitions provided are box-inserted clearly and prominently so that they do not interfere with the flow of the text.

Level of interest: An exceptional article

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

None other than contact with one or more of the authors on unrelated matters in public involvement.
