Reviewer’s report

Title: Patients’ perspectives can be integrated in health technology assessments: an exploratory analysis of CADTH Common Drug Review

Version: 0 Date: 17 Dec 2015

Reviewer: Shahid Muhammad

Reviewer's report:

Dear Author,

This is an important subject area.

There have not been many studies relating to this topic so it is important that the research team focus on the key area with respect to ascertaining the literature. I warmly suggest the research team highlight more examples of where patient examples can be integrated with health technology assessments, for example patient records access, summary care records and personal health records. This is otherwise a welcomed piece of research and very informative.
