Reviewer’s report

Title: Patient and public involvement in health literacy interventions: A mapping review

Version: 0 Date: 10 Aug 2017

Reviewer: Sue Hampton-Matthews

Reviewer's report:

This is a generally a well written article of interest to Patient and Public Engagement managers, researchers and people who take part in PPI groups. This article could have an impact on shaping the future structure and roles of PPI groups. The article does need some minor revisions as some of the sentences don't make sense because the wrong tense, or word has been used, below are the ones I picked out:

Line 118 'Interventions that were' remove were.

Line 148 'who was involve' involved.

Line 225 'experiences or' replace or with of.

Line 234 'patients use website' websites or add the between patients and the.

Just a thorough proof read should do it.

I would have been interested to see the breakdown of the amount of Patient and Public involvement in the different countries. It would be interesting to know maybe for a future paper the impact on PPI since it has been required by Ethics approval and the levels of input that researchers have sought.
