Reviewer’s report

Title: Involving service users in the qualitative analysis of patient narratives to support healthcare quality improvement.

Version: 0 Date: 29 Aug 2018

Reviewer's report:

The paper covers a subject of importance, thank you for your effort on it.

The training of the patients (one day) was quite limited.

It is difficult to evaluate the benefit of patient involvement with a limited selection of patients, who have no time to prepare the topic.

Further explanation on the exact topic of interest (incl. which video was viewed - you gave a link with a list of videos, I could not find which was used, and what you really expect from patients) would have been more helpful.
