Reviewer’s report

Title: The Development and User Evaluation of Health Behaviour Change Resources for Teenage and Young Adult Cancer Survivors

Version: 0 Date: 11 Oct 2018

Reviewer: Kate Sonpal

Reviewer's report:

Interesting article around a subject that appears to be in its infancy despite the need identified. However, I think that more engaging methods to get the views of the TYACS could have been employed. The author mentioned that there was a drop out rate because of survey fatigue and this is not surprising. This reduced the number of an already small number of respondents.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:
