Title: Reflections on qualitative data analysis training for PPI partners and its implementation into practice

Version: 1 Date: 27 Mar 2019

Reviewer's report:

I have made the review of the paper. Please find attached with some minor comments. In principle it is a good paper but I have a main question regarding the real outcome:

- There is no description/comparison about the knowledge/skills before the training and after the training.

It is also not clear how "coding" was trained and what was the exact training content. This would be helpful to showcase others what is helpful and what not.

In my eyes it is a nice description of a project but not with high scientific value.
