Reviewer's report:

Dear Authors, thank you for your responses to review comments which you addressed sufficiently. The manuscript still presents the improvement potential and I invite you to revise the article plain English summary to make it more clear, explicit and engaging. Please include some information on the service and service user representatives so the reader can immediately understand the research setting and correctly identify patients concerned. The objectives of the study as well as the main results should be also more clearly stated in the summary. Please verify if in the last sentence of the summary you indeed intend to use word 'experimented'.
