Reviewer’s report

Title: Tufts PACE Clinical Predictive Model Registry: Update 1990 through 2015

Version: 0 Date: 2017-07-06

Reviewer: George Siontis

Reviewer's report:

I have found the paper clear, well laid out and well written.

Some minor comments:

1) Redundant figures should be avoided (Figure 2 and Figure 4). The same are provided in website.

2) The following statement "Circulation published 53 (7.1%) and Journal of American College of Cardiology published 45 (6.0%) of the articles included." should be rephrased to make clear to which sample the percentages pertain.

3) Tables 2A, 2B, 2C should be merged.

4) It will be interesting to plot the distribution of discriminatory performance of the included stratified according to the "primary index condition".

5) Have the authors captured any items for quality assessment of the selected papers? Such additional information would have been important.
