Reviewer’s report

Title: Living with osteoarthritis is a balancing act: An exploration of patients' beliefs about knee pain

Version: 1 Date: 14 Mar 2018

Reviewer: Ricardo Ferreira

Reviewer's report:
The authors adequately addressed my comments as well as the comments from the other reviewers.

I have only a minor suggestion in the abstract. In its first version the authors clear indicated the two main themes using 1) and 2). In the current version they did not and it may be not easy for the reader to identify the second one. This may be due to word limit. The authors could, for instance, consider to use quotation marks to better differentiate the themes.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
