Reviewer’s report

Title: Immunoglobulin abnormalities are frequent in patients with lupus nephritis

Version: 0 Date: 30 Apr 2019

Reviewer: Roberta Fenoglio

Reviewer’s report:

Thanks for the opportunity of reviewing this study. This, manuscript gives exhaustive evidences about the immunoglobulin abnormalities in lupus nephritis.

This paper adds more informations a still not so clear about immunologic system alteration in SLE. Moreover the conclusions are interesting for clinical practice.

It would be useful to add the protocol of immunoglobulin replacement therapy.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
