Author’s response to reviews:

Dear Editor,

Please find enclosed the revised manuscript: «Fibromyalgia in the workplace: risk factors for sick leave are related to professional context rather than fibromyalgia characteristics. A French national survey of 955 patients” - BRHM - D-19-00020R1

Below are the details of the revision made in response to the Editor's comment.

We hope these changes have increased the value of the manuscript to the greatest extent possible. We would be grateful if you would consider publishing this paper in its revised form.

Yours sincerely,

Prof. Françoise Laroche
