Reviewer’s report

Title: Serious infections in patients with self-reported psoriatic arthritis from the Psoriasis Longitudinal Assessment and Registry (PSOLAR) treated with biologics

Version: 1 Date: 14 Jul 2019

Reviewer: Dongze Wu

Reviewer's report:

The study is very interesting, providing data about serious infections in psoriasis patients with self-reported psoriatic arthritis. In my opinion the paper is suitable for the publication. I suggest including in the discussion section some data about the possible clinical implication of the results.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
