Reviewer’s report

Title: The effect of glucocorticoid therapy on mortality in patients with rheumatoid arthritis and concomitant type II diabetes: a retrospective cohort study.

Version: 0 Date: 08 Oct 2019

Reviewer: Tânia Santiago

Reviewer's report:

This manuscript represents a very important step forward to a better knowledge of the impact of GCs in RA. Its results and conclusions are important for clinical practice.

In the discussion/limitations of the work no information is given regarding GCs doses and route of administration. In addition, there is no information regarding type of diabetes: insulin or no insulin dependent. please expand these comments.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
