Title: S100A4 is elevated in axial spondyloarthritis: a potential link to disease severity

Version: 1 Date: 29 Nov 2019

Reviewer: Ricardo Ferreira

Reviewer's report:

Dear Authors,

Thank you for the changes and improvements addressing the comments made.

I am happy with these changes.

I would only suggest that, in the second paragraph of the methods, you can mention only the males (if there are 21 individuals and 19 are males, the 2 remaining are females).

Good luck for this and for the following research.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
