Title: Ten Recommendations for Using Implementation Frameworks in Research and Practice

Version: 1 Date: 23 Feb 2020

Reviewer: Bethany Kwan

Reviewer's report:

Thank you for your thoughtful response to my comments and edits to the paper. All of my concerns have been addressed. I believe this paper will be very useful for both junior and senior D&I investigators. The one thing I might suggest would be editing the double negative in the phrase "This doesn't mean a framework isn't very informative..." (my fault, since that phrase is taken directly from my reviewer comments!). Maybe just say, "At this early phase, the order of recommendations may vary..."
